PROFILE

Senior Data Analyst with 4+ years of experience in Business Intelligence and Data/Geo-Analytics at Ooredoo Tunisie, a leading telecom operator in the MENA region. Expert in complex data modelling (Power BI, advanced DAX, SQL, SAS) and in steering strategic KPIs (ARPU, Churn, Revenue, Base, Transactions, Sales), with a rare dual expertise in Data/BI and Geomarketing.

Led the complete migration of reporting to a unified Power BI architecture, trained more than 10 colleagues and received two internal awards. Certified Microsoft Power BI Data Analyst Associate (PL-300).

PROFESSIONAL EXPERIENCE

Senior Data Analyst - Reporting and Performance *(Budget and Performance Department – Marketing Intelligence)*

June 2025 – Present

Ooredoo Tunisie (Telecommunications, 1,000+ employees) - Tunis, Tunisia

- Optimised the architecture of Power BI data models (advanced DAX, Time Intelligence, incremental refresh), cutting report refresh time from 3 hours to 5 minutes (**-97%**) by rebuilding the group's semantic modelling layer.
- Steering of **5** strategic KPIs (ARPU, Churn Rate, Active Base, Revenue, Transactions, Gross Adds) in direct collaboration with top management, keeping business steering aligned with group priorities.
- ROI calculation for **30** marketing product/service launches per year, with full tracking of incremental revenue to guide investment decisions.
- Secured data access for **35** users through Row-Level Security (RLS).
- Trained more than **10** colleagues in advanced Power BI through dedicated technical workshops, accelerating business teams' autonomy in self-service reporting.
- Aligned data governance with GDPR requirements (access traceability, anonymisation), covering **60%** of sensitive data flows in a multi-country group reporting context.
- Structured a technical documentation framework (data dictionary, lineage, ETL, versioning) covering **5** Power BI models, ensuring traceability and replicability at group level.

  Tools: Power BI, SQL, SAS Enterprise Guide, Tableau Software, ArcGIS Pro, Excel/PowerPoint

Data Analyst - Reporting and Performance *(Budget and Performance Department – Marketing Intelligence)*

June 2023 – May 2025

Ooredoo Tunisie (Telecommunications, 1,000+ employees) - Tunis, Tunisia

- Migrated all Excel reporting environments and **15** Tableau reports to a single Power BI data model, delivering 46 dynamic reports and **10** on-demand dashboards.
- Extracted and aggregated massive data volumes from the Data Marts by writing highly complex SQL queries (window functions, CTEs, multiple joins).
- Automated regularisation programs and reports with stored procedures and advanced SAS macros (ETL), halving (**-50%**) manual processing time.
- Awards: winner of the Marketing Department Bravo Award and the CEO Recognition Award.

Data Analyst - Geomarketing *(Geomarketing Department – Marketing Intelligence)*

May 2022 – May 2023

Ooredoo Tunisie (Telecommunications, 1,000+ employees) - Tunis, Tunisia

- Segmented the mobile subscriber base (**7** million) by radio cell and address, identifying priority areas by profitability to target **84** Bulk SMS campaigns per year.
- Built a catalogue of **100k** B2B prospects across Greater Tunis and Sfax, qualified by fixed-service eligibility (4G, fibre, Fixed Wireless), feeding the fixed sales pipeline.
- Automated **5** spatial performance reports (churn, Gross Adds, voice & data traffic, market share) by site, sector and delegation, cutting production time by **80%**.
- Modelled catchment areas and developed a customer mobility model, guiding the location of **12** new high-potential shops.
- Segmented customers into **5** homogeneous profiles using K-means clustering (socio-demographic variables, usage, ARPU), sharpening marketing targeting and improving campaign conversion rate by **30%**.
- Conducted exploratory statistical analyses (correlations, hypothesis tests) on traffic and customer behaviour data, supporting **4** business recommendations approved by management.
- Designed **3** Power BI geomarketing dashboards (data storytelling), used by **5** sales/technical teams to monitor indicators by area.

  Tools: SQL, Python, SAS Enterprise Guide, Tableau Software, ArcGIS Pro, Excel/PowerPoint, Adobe Illustrator

GIS Engineer - Land Infrastructure Department

March 2021 – May 2022

Acoustica, acoustic engineering consultancy - Tunis, Tunisia

- Developed automated geoprocessing scripts (Python, ArcGIS Model Builder), cutting production time for strategic noise maps by 75%.
- Modelled the acoustic exposure of 5 départements as noise contours from the road network and terrain, structuring the spatial databases (IGN BD TOPO & BD ALTI).
- Analysed residents' noise exposure by municipality by crossing simulated noise contours with gridded population data (INSEE).
- Produced cartographic deliverables (maps, atlases, networks) for GIS projects within the contractual deadlines set by clients.

  Tools: ArcMap, ArcGIS Pro, Python, SQL, CadnaA

GIS Intern - Thnity Urban Mobility Analytics

March 2020 – September 2020

Thnity Startup - Tunis, Tunisia

- Designed and developed, as a final-year engineering project, a decision-support tool for analysing and visualising urban mobility across Greater Tunis.
- Automated bus route generation for 300 lines from their locations, and developed a Web GIS dashboard to visualise the network.
- Generated public transport service areas across Greater Tunis using SQL, Python and ArcGIS Pro.

Urban Planning Intern

February 2017 – June 2017

Greater Tunis Urban Planning Agency (Agence d'Urbanisme du Grand Tunis) - Tunis, Tunisia

- Revision of the Urban Development Plan of the municipality of Sidi Bou Saïd: produced and updated thematic maps (road transport, land use, networks, accessibility).
- Contributed to a new urban development plan integrating the municipality's revision items.

  Tools: ArcMap, Excel, Adobe Photoshop/Illustrator

TECHNICAL SKILLS

BI & Visualisation: Power BI (advanced DAX, Power Query, RLS, Service), Tableau, Microsoft Fabric (OneLake, Semantic Models, Dataflows Gen2), advanced Excel

Data & Programming: Advanced SQL (CTEs, window functions, multiple joins), Python (Pandas, NumPy), SAS (macros, stored procedures, Enterprise Guide)

Statistics & Machine Learning: Clustering (K-means), regression, hypothesis testing

GIS & Spatial Analysis: ArcGIS Pro, QGIS, ArcMap, Model Builder, AutoCAD

Design & Office: Adobe Illustrator, Adobe Photoshop, Microsoft Office (Word, Excel, PowerPoint)

Business Domains: Marketing Analytics, Revenue Analytics, Geomarketing, Data Governance & Quality, Data Stewardship

EDUCATION

National Engineering Degree in Surveying and Geomatics (Master's level, 5 years) **2017 – 2020**

École Supérieure de l'Aéronautique et des Technologies - ESAT University, Tunis, Tunisia

Final-year project: design and development of a decision-support system for analysing and visualising urban mobility in Greater Tunis.

Applied Bachelor's Degree in Operational Urban Planning (3 years) **2014 – 2017**

Institut Supérieur des Technologies de l'Environnement, de l'Urbanisme et du Bâtiment (ISTEUB) - Tunis, Tunisia

CERTIFICATIONS

- Microsoft Power BI Data Analyst Associate (PL-300)
- Data Analyst Bootcamp - Udemy, 365 Careers (Python, NumPy, Pandas, data collection and preparation, visualisation)
- Career Essentials in Data Analysis - Microsoft & LinkedIn Learning
- SQL for Data Analysis - LinkedIn Learning

LANGUAGES

French: Professional **English:** Professional **Arabic:** Native

VOLUNTEERING

- Enactus ESAT - social entrepreneurship programme: Graphic Designer (Marketing & Communication department).
- Finalist of the Enactus Tunisia 2019 national competition.
- YidWa7da: Graphic Designer & Community Manager (a public mutual-aid platform initiative during the Covid period).
